Independent Auditor's Report

City Court of Batouap
Batouap, Louisiana

I have audited the accompanying general purpose financial statements of the City Court of Batouap, a component unit of the City of Batouap, Louisiana, as of and for the year ended June 30, 2000, as listed in the table of contents. These general purpose financial statements are the responsibility of the City Court of Batouap's management. My responsibility is to express an opinion on these general purpose financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards and the standards applicable to financial audits and contained in Government Auditing Standards, issued by the Comptroller General of the United States. These standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the City Court of Batouap, Louisiana, as of June 30, 2000, and the results of its operations for the year then ended in conformity with generally accepted accounting principles.

In accordance with Government Auditing Standards, I have also issued my report dated December 18, 2000 on my consideration of the Batouap-City Court's internal control over financial reporting and my tests of its compliance with certain provisions, regulations, contracts and grants.

My audit was performed for the purpose of forming an opinion on the general purpose financial statements of Batouap City Court, Louisiana, taken as a whole. The accompanying schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in my opinion, is fairly stated, in all material respects in relation to the general purpose financial statements taken as a whole.

CITY COURT OF BASTROP
Bastrop, Louisiana

Notes to the Financial Statements
As of and For the Year Ended June 30, 2009

1. INTRODUCTION

As provided for by Chapter Seven of Title Thirteen of the Louisiana Revised Statutes, the City Court of Bastrop has limited jurisdiction in civil and criminal matters in the City of Bastrop including Wards 3 and 4 of Morehouse Parish.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF PRESENTATION

The accompanying general purpose financial statements of the City Court of Bastrop, Louisiana have been prepared in conformity with generally accepted principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

B. REPORTING ENTITY

As the governing authority of the city, for reporting purposes, the City of Bastrop is the financial reporting entity for the city. The financial reporting entity consists of (a) the primary government (city), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board (GASB) Statement No. 14 established criteria determining which component units should be considered part of the City of Bastrop for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial responsibility. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of the city to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the city.

2. Organizations for which the city does not appoint a voting majority but are fiscally dependent on the city.
3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Because the city provides the court's building, its furnishings, and pays most of its operating expenditures, the court was determined to be a component unit of the City of Houston, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the court and do not present information on the city, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

C. FUND ACCOUNTING

The court uses funds and account groups to report on financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts that comprises its assets, liabilities, fund equity, revenues and expenditures. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds are classified into two categories: General fund and fiduciary (agency funds). These funds are described as follows:

General Fund:

The General Fund is the principal fund of the city court and accounts for its operations in this fund. General operating expenditures are paid from this fund.

Agency Funds:

Agency funds account for assets that are held by the city court in a custodial capacity pending their transfer to the proper recipient, as provided by Louisiana law. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Budget Practices

No budget is prepared and adopted, since this is a very small entity.

Fund Equity

No funds are received.

E. TOTAL COLUMNS ON STATEMENTS

Total Columns on the statement are captioned *Memorandum Only* to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position or results of operations in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation.

F. CASH AND CASH EQUIVALENTS

Cash includes amounts in demand deposits, interest-bearing demand deposits, and time deposits.

Under state law, the court may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the union, or the laws of the United States. The court may invest in certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. At June 30, 2000, the court has cash (bank balances) totaling \$135,014.

These deposits are stated at cost, which approximates market. Under state law, these deposits, or the resulting bank balances, must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. Cash (bank balances) at June 30, 2000, are secured as follows:

Bank Balances	\$135,014.00
Federal Deposit Insurance (3 Banks)	<u>\$260,000.00</u>
Pledged Securities	<u>\$23,117.00</u>

**Report on Compliance and on Internal Control Over Financial
Reporting Based on an Audit of Financial Statements Performed in
Accordance With Government Auditing Standards**

Bastrop City Court
Bastrop, Louisiana

I have audited the financial statements of Bastrop City Court as of and for the year ended June 30, 2000, and have issued my report thereon dated December 18, 1999. I conducted my audit in accordance with generally accepted auditing standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether Bastrop City Court's financial statements are free of material misstatements, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with these provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my test disclosed no instances of noncompliance that are required to be reported under Government Auditing Standards.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered Bastrop City Court's internal control over financial reporting in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control over financial reporting. My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. I noted no matters involving the internal control over financial reporting and its operation that I consider to be material weaknesses.

This report is intended for the information of management and the Louisiana Legislative Auditor. However, this report is a matter of public record and its distribution is not limited.
